

SOSTEN

(Save Our Sound)

For Giulio, music has always been a way to communicate, to escape from everyday life, and to create personal connections. For this reason, in 2018, he created Save our Sound, a community where, along with a few friends, he could share what inspired him the most, with the goal of connecting with people and communities that best represented him.

By connecting with realities from all over the world, Sosten draws inspiration to develop a constantly evolving style, which currently oscillates between Trance, Electro, and New Beat sounds, with fast rhythms and continuous progressions.

Thanks to his participation in the duo The Curious Incident alongside his friend and colleague Crazy C, he has had the pleasure of playing on various stages in Europe, including Club Der Visionaere, Magik Bar, Bonfim Club, Buena Onda, Jolene, Ftvristica and more.
