

THE CURIOUS INCIDENT

(Save Our Sound)

The Curious Incident was born, as the name suggests, from an unexpected event that marked the lives of Giulio (aka Sosten) and Matteo (aka Crazy C). The two met in Copenhagen in May 2020: two young men leaving home, with minds full of dreams and goals. Coming from different musical backgrounds, they quickly realized that music bound them deeply, a connection that grew stronger through their performances at the Jolene Club.

There, step by step, they managed to make a name for themselves in the local scene, winning over a distinctly more "raver" crowd than they were used to. Their sound resonated, inspiring many to seek out fresh ideas.

Over the past three years, they've had the opportunity to work alongside respected artists and selectors, absorbing new sounds to blend into their sets, inspired by what they share within their community, Save our Sound.
